

I like the Wisconsin No call list because before I was on it I would get woke up in the morning at least 10 to 12 times. Also it got to the point that I would check caller ID before answering the phone and if I didn't recognize the phone number or the number was blocked I didn't answer it. Right now I don't have to worry about it and just answer my phone. Why should I have my privacy taken away so telemarket people can make money. Right now I pay for unlisted phone number and don't want to give it out to telemarketers!
